HUNTING KIDD'S BURIED GOLD.

Tradition Says the Merry Cutthroat Buried Treasures Up the Hudson.

SCARBORO, N. Y., Feb. 16 .- During the last few days several parties of New York prospectors have been looking for Captain Kidd's treasures. Tradition has it that Captain Kidd sailed up the Hudson and anchored his long, low, rakish craft off where Mr. Rockefeller's boathouse now is. The pirate, it is said, blindfolded his men and led them through a labyrinth of woods to "Spook Rock," underneath which he buried some of the many chests of gold and silver which he was in the daily habit of taking from merchantmen on the main. Then, as usually the case, he killed one of his men and left the spirit to guard the treasures. The ghost haunted the rock and nightly mourned and wailed to frighten the farmers until lately. Once a party of men dug ten feet and struck something hard. It was an iron-bound chest. They attempted to refer it but instanting the lights went out to raise it, but instantly the lights went out and the hole filled up beneath their feet. All around "Spook Rock" evidences of hardy explorers are to be seen. Tarrytown men by Mr. Rockefeller's watchman. Mr. ckefeller does not believe in the Kidd nd any more. He has had

To clinch the matter a procession of carriages containing policemen and reporters started at 12:45 o'clock for Fort Thomas last night. George H. Jackson drove the leading carriage. The procession struck the murderers' route at Vine and Third streets, and, with George H. Jackson for a guide, followed it to the bloody ground. A halt was made at the Newport bridge toil booth to seek another link in the chain that binds these men to the guilt of Pearl Bryan's murder. Toil collector Tarvin said he remembered the surrey driven by a colored

Scott Jackson and Alonzo Walling to Be Confined in Covington Jail and to Be Protected by Militia.

Special to the Indianapolis Journal. CINCINNATI, Feb. 16 .- To use a favorite expression of the newspaper reporters of ed recital of the man that moved all presthis city, "the coils are tightening" about ent as no counterfeit presentation on the Scott Jackson and Alonzo Walling, the alleged murderers of Pearl Bryan, the Green- described the strange noise and the sounds castle girl whose body was found beheaded are seemingly changing into a couple of hempen nooses that may soon circle the this city has known. The complete identification of Walling by the negro coachman in getting the right drug and the right who drove the murderers and their victim across the river, and the partial identification of Scott Jackson, leaves no doubt in the minds of many people that the prisoners confined in jail here are the beheaders of Pearl Bryan. George H. Jackson, the coachman, is a reputable colored citizen, whose word is not doubted by any person who has ever employed him, and the story of the drive on that fatal night was further strengthened by to-night's developments.

Detectives, police and scores of citizens spent Sunday in searching for the surrey and gray horse that carried Pearl to her death. This search was fruitless until to-night, when detectives Crim and McDermitt found a gray horse and a rockaway carriage in the stable of the Walnut Hills Cab Company. The vehicle was hired out between 4 and 7 o'clock p. m., Jan. 31, and was returned at 4 a. m. Feb. 1. President Mullen. of the cab company, says that the man who hired it was about the size and general appearance of Walling, but, he thought, had a darker complexion. The carpet in the rockaway had blood spots on it, and a bloody pencil was found in it. The negro Jackson drove the horse, and says it is less spirited than the one he drove the night of the murder, but that it plunges forward and takes the bit in its mouth the same way. He fails to identify the rockaway, but says it might be made to look like a surey by the use of storm curtains. While the identification not so complete as the authorities would like, the detectives are confident they have found the right vehicle and horse. Rumors were affoat several times to-night to the effect that mobs were forming to lynch the prisoners, but investigation disclosed the falsity of the reports. Jackson and Walling will not be lynched in Ohio, and Governor Bradley says that when they are taken across the river to Kentucky he will protect

Fair weather prevailed except near the lakes, Later.-George H. COACHMAN JACKSON.

He Drives a Party to Fort Thomas and Repeats His Story. CINCINNATI, Feb. 16.—The excitement

this city and vicinity over the atroclous murder of Pearl Bryan has been intensified by the developments of last night and today. People had time for reading the papers this morning. The feeling to-night is of the silent but ready sort that portends latent danger. No outbreak is anticipated. and a successful one here would be out of the question with the present efficiency of H. McMahon, dated Marion, Ind., Feb. 14. the police and the military. While the feeling here is of the explosive sort, the external restraint is sufficient to prevent an explosion. Every other man one meets expresses the opinion that short work should be made of these men. The thinking and strictly law-abiding element in Covington and Newport have confidence in the courts. and believe in depending on the courts to mete out justice to the prisoners. It is now probable that Scott Jackson and Alonzo Walling will be taken to the Covington jail, which is very strong, and also well situated

to resist a siege. The jail in Newport is A special circumstance that gives weight to the testimony of George H. Jackson, the to it. She says when she saw the pictures negro who drove the surrey to Fort Thom- of Pearl Bryan and Jackson that they are as, is the good name he bears among all the two that got on the train that morning: they sat and talked together. She heard the man ask the girl if she got his letter; for whom he worked four years, says: "He she said she did. This lady and her father is the best and truest all-round negro 1 ever knew. I would trust him with anything." Maj. W. S. Widdekind, of McGregor avenue, Mount Auburn, the negro's present employer, says: "George H. Jackson is highly intelligent, very reticent, has no bad habits, never drinks liquor or uses tobacco, is competent, trustworthy and efficient as an employe, and is an active mem-ber of Zion Colored Baptist Church. He takes two daily papers, and is a man of more than ordinary intelligence. I have the most complete confidence in his veracity and integrity." Major Widdekind and the family have noticed that he has been unusually silent since the murder, and that

he has lost appetite. HAS NOT ASKED A REWARD. Another circumstance in Jackson's favor s that there is a reward of \$500 for the discovery of the cab driver. George H. Jackson is implicated in the Pearl Bryan murder has not made any claim for this reward. nor has he even spoken of it. In his statement last night he said that he found in the surrey, instead of a round hitching weight. a piece of railroad rail about a foot long while waiting for the return of the two men who had gone away with the girl at the place of the murder. It had two holes through it. A leather strap was fastened to hitching weight and then ran away as fast as he could run till he came home. Right here is the great point in the chain of circumstances. It was just precisely such a plece of railroad iron that was wrapped up in Jackson's bloody coat when it was fished out of a sewer catch basin at the corner of John and Richmond streets several days ago. What emphasizes this evidence is the

fact that, his coat being wrapped around a piece of railroad iron has never been mentioned in the newspapers.

H. Jackson's story that the conveyance used was a surrey, and that George H. Jackson abandoned it in fright on that tragic night, is the fact that a gentleman THREE PROCLAMATIONS ISSUED BY Newport driving towards Fort Thomas THE SPANISH CAPTAIN GENERAL. in a buggy on that Saturday morning about 3 o'clock met a surrey drawn by a gray horse, with two men on the front seat, and

in the surey drove on towards Newport at a furious rate. This man's name is not given, Evidence that the "Terror" Intends to Make Short Work of Cuban Patriots and Their Sympathizers.

murder. Toll collector Tarvin said he remembered the surrey driven by a colored man passing over the bridge about 1 o'clock on the morning of Feb. 1. It contained a man and a woman, and there was a white man with the negro driver on the seat. The procession was led by George H. Jackson through unfrequented back streets in Newport and by a long circuitous route of mud roads, in the darkness, under a cloudy sky, and finally into the Alexandria pike near Fort Thomas. After driving a short distance George H. Jackson stopped just where a blind lane set out for the road. "Here," said he, "is where they took the lady and told me to turn the carriage around and wait." PITTSBURG, Pa., Feb. 16 .- Senator Quay has dispelled all doubts as to the sincerity of the movement in favor of his nomination for the Presidency at the St. Louis convention, through an interview with Frank De H. Robison, of Cleveland, made public this evening. Mr. Robison, who is the representative of Mark A. Hanna, ex-Governor McKinley's right-hand man, called on Senator Quay at his home in Beaver to-day, and pointedly asked the latter what his real position in the Presidential race was. The query was brought about by the numerous statements that Senator Quay's candidacy was merely a bluff. Mr. Robison to-night said the Senator received him cordially, and, in answer to the leading question, unhesitatingly, and without qualification, said his candidacy was bona fide in every respect, and that he was in the fight to win. Should he fail not work faithfully to attain their end. vana with the papers in the case, so that | Mr. Robison was pleased with the outken way in which Senator Quay met him, but says the McKinley forces will be nothing daunted, and will not waver a particle in their allegiance to him.

Mayor Strong Talks.

NEW YORK, Feb. 17 .- The Advertiser this morning says: Mayor Strong has practically disentangled himself from his offer of \$500. which sum he was to pay to any one furnishing to him authentic information that during his administration places have been either promised or given for political services to his particular wing of the Repub-lican party. He says in effect: "I did offer such a premium, or you may call it reward if you like, for such a discovery, and I would be glad to pay it if the proofs furnished to me were satisfactory. As a matter of fact, they are not, and no business man, no judge in the courts, no sensible individual would accept them for anything save what they are worth."

Another New Party. OMAHA, Neb., Feb. 16 .- A new national political party was born in Omaha tonight. Two hundred laboring men organized it. General Kelly, of industrial army fame, presided. Following is the pledge: "Recognizing the necessity of labor organization for its protection, we, the undersigned, do pledge ourselves to support no political party other than the party of labor, and we hereby remounce any and all relitical additation with the Republican political affiliation with the Republican, Democratic and Populist parties." A State and national organization will be pushed at

PANTS MAKERS ON STRIKE

Over 2,000 Quit Work Because of an Order Reducing Wages.

NEW YORK, Feb. 16 .- Two thousand trousers makers went on strike in this city to-day, closing 240 shops. The strikers have the support of the trousers makers of Williamsport and Brownsville, five hundred of whom also went out. At a meeting in New Irving Hall, on Thursday, the members of Pant Makers' Unions Nes. 8 and 10, of this city, decided to go on strike unless the con-tractors agreed to rescind their recent order reducing wages from 35 to 50 per cent. Delegates from the out-of-town unions who were present ratified the decision, and preparations were made for the struggle. The contractors said that the men could not afford to strike until the times were better. and warned the unions against trying that course. When the shops were opened for business to-day there were no workmen to take the unfinished material, so the contractors shut up their places and went

SERIOUS CRISIS IN FRANCE

STRUGGLE BETWEEN THE SENATORS

Situation Reported by Correspondents to Be Very Grave-End of the Rev-

olutionary Movement in Samoa.

Copyright, 1896, by the Associated Press.) CHRISTIANIA, Norway, Feb. 16 .- Widepread as is the interest over the whereabouts of Nansen, an interest extending to-day over the whole world wherever the telegraph and cable can reach, it can nocity, whence the expedition in the Fram that the first news or himself that the explorer could by any possibility transmit would probably be directed to his wife, a reporter has called on Mrs. Nansen to inquire what intelligence she has of her husband's whereabouts. She has received no word from her husband directly, but is profoundly hopeful that the news, which first came from Irkutsk and has since been corroborated from other sources, is authentic, and that Dr. Nansen has, in faci, solved the secret of the north pole and is now safely emerging from the mystic isolation of the frozen regions. It must be added, however, that there is a reservation of doubt in Mrs. Nansen's mind, despite the hopefulness that buoys her up. The absence of direct news to herself leaves herself to take assurance of her husband's good fortune until she hears it from himself. She fears the possible fall from this high point of happiness should there be

subsequent disappointment. Scientists here, whose sympathy with Dr. Nansen and the objects of his expedition is very vivid and cordial, believe, from the news received, that Dr. Nansen has reached the coast of Siberia and is now returning from the pole.

THE COREAN UPRISING. It Seems to Have Been in the Interest of the Russians.

LONDON, Feb. 16 .- The Times will print a dispatch from Kobe, Japan, to-morrow, which says: "News from Seoul, Coreaproves that Russia made a remarkable coup on the night of Feb. 10. On that night 200 Russian marines, with a field-gun, were landed at Chemulpo and marched to Seoul. The King secretly left the palace for the Russian legation, whence he proclaimed his ministers guilty of treason. Two of the ministers were arrested and executed, and the others fied. The Tai-Won-Kun (the father of the King) is a prisoner at the legation. The anti-Japanese Ministry was then formed. A bitter feeling has been aroused in Japan. A Cabinet council was held, at-

tended by the military officials. "It is reported that the Russian minister declared that Russia was not responsible and that he merely afforded protection at the King's request. But it is believed that this precludes a Russian protectorate over

Captain McNair's Dispatch. WASHINGTON, Feb. 16 .- Secretary Herbert to-day received a cablegram from Captain McNair, commanding the Asiatio station, confirming the newspaper reports of the renewed disturbances in Corea, The

cablegram was sent from Nagasaki, Japan, and is in the following words: "Telegraphic information has been revia Chefoo, China, as follows: There is much (great) excitement in Seoul, Corea. King has gone to the Russian legation and ordered the arrest of the Corean Cabinet. Guard has gone to Seoul, Corea. Telegraph wires have been cut. ing the trouble referred to, and the only

information at hand is that obtainable

LONDON, Feb. 17 .- The special dispatches from Paris this morning all agree as to the gravity of the French crisis. According to a semi-official statement, M. Bourgeols, the Premier, had an interview with President Faure Sunday afternoon, and explained that the conflict of the Senate with the Chamber had assumed such a character that a resignation of the Ministry would not solve the crisis. The Cabinet had, therefore, decided to await the further expression of the opinion of the Chamber, the Ministers agreeing that they can no more yield to the Senate than they can disregard the confidence of the Chamber. A dispatch from Paris to the Post says: "The real origin of the crisis is the determination of the Senate to overthrow the radical Ministry or to die in the attempt. Not since Mai Seize has France been on the brink of so extensive an upheavat. President Faure's position is shaken, and he is severely blamed by all moderate politicians for suffering the experiment of a Radical Ministry, failing to foresee the countless difficulties that were bound to

The Paris correspondent of the Times telegraphs as follows to that paper: "The Cabinet has sounded a clear note. If it succeeds, it is nothing more nor less than a coup d'etat. If it fails, it is an act of violence to no good end. The setting aside of the vote of the Senate virtually upsets the Constitution. If the Senate stands firm, there are two alternatives: The resignation of the Ministers or the expulsion of the Senate by a mob. The latter would mean the superseding of the Constitution by a revolutionary convention.
